About Me

Hi, I am a dedicated and highly motivated recent computer science graduate having fine expertise in web development especially in MERN stack development. I specialize in building robust and scalable web applications using HTML, CSS, React.js, Node.js, Express.js and MongoDB. I have developed several projects in HTML, CSS, core Javascript, React.js, Node.js, Express and MongoDB. I stay up to date and go with the trending technologies in my domain which keep me learning every now and then.

For any interaction, feel free to contact me through my email address.

Professional Experience

Full stack web developer | No industry experience

Some of my recent projects:

- Backend in node.js for a big mobile application project as FYP
- Payment with Stripe in node.js
